GO Enrichment Analysis:
Polyl:C vs Control Media Samples Across Conditions
Top activated and suppressed GO terms by adjusted p-value
Activated
Suppressed
FA-Exposed Samples, 1 Day Post-Exposure
DE-Exposed Samples, 1 Day Post-Exposure
Incubator Control
negative regulation of viral genome replication
negative regulation of viral process
regulation of viral genome replication
regulation of viral life cycle
viral genome replication
defense response to virus
regulation of viral process
response to virus
cytoplasmic translation
negative regulation of viral genome replication
negative regulation of viral process
response to type I interferon
cellular response to type I interferon
regulation of viral life cycle
regulation of viral process
defense response to virus
cytoplasmic translation
negative regulation of viral genome replication
negative regulation of viral process
regulation of viral genome replication
regulation of viral life cycle
regulation of viral process
viral genome replication
response to type I interferon
